Introduction

»Die kleine BERLIN-STATISTIK 2016« (statistics for the City of Berlin 2016, key facts and figures) offers information on the development of the German capital, based on the most important statistical results.

Key figures to demographic, economic, social, cultural and political structures of Berlin are shown in Chapter 1 to 27. The results are compared to previous years. The brochure also contains information on the city's boroughs (Chapter 28), data on Berlin's development since 1871 (Chapter 29) and figures for the region of Berlin/Brandenburg (Chapter 30).

On December 31, 2015 the area of Berlin covered 892 km². More than 41 percent of it were building and adjacent open area and nearly 15 percent transport area. Recreation area covered 12 and production area 0.6 percent.

In 2015 more than 38 thousand children were born alive in Berlin. The number of deaths was more than 34 thousand, which leads to a surplus of births of 4 thousand people. Berlin registered in 2015 a migration surplus of approximately 43 thousand people. At the end of 2015 Berlin had nearly 3.5 million inhabitants, 50 thousand persons more compared to the beginning of the year. About 546 thousand foreigners lived in Berlin at the end of 2015.

In 2015 nearly 2.0 million private households has been counted, with a share of 55 percent single-person households. 340 thousand families with children under the age of 18 lived in Berlin.

In the school year 2015/16 approximately 336 thousand pupils attended general education schools, including 10 percent at private schools.

In the winter semester 2015/16 there were about 176 thousand students in Berlin, of which were 50 percent female students. 67 percent of the students were enrolled at universities. 32 percent were students in the fields of legal, economic, and social sciences faculties, and 27 percent students of engineering.

In 2015 more than 21 thousand physicians and 4 thousand dentists practiced in Berlin.

81 hospitals in Berlin has nearly 20 thousand beds in. The average length of stay was 7.4 days.

In 2015 there were approximately 22 thousand recipients of continual subsistence payment, 74 thousand recipients of basic security benefits in old age and in cases of reduced earning capacity and 60 thousand recipients of benefits from the 5th to 9th Chapter to the Sozialgesetzbuch XII (SGB XII).

The number of visitors and overnight stays steadily increased over the course of 13 years. Overnight stays even exceeded the record of 2014, with more than 30.2 million nights in total. Also the total number of visitors increased up to 12.4 million, whereas the the average length of stay of tourists in Berlin was 2.4 days

Nearly 11 thousand dwellings were built in Berlin in 2015, nearly 25 percent more than in the previous year. Most dwellings were built in in the boroughs of Pankow, Mitte and Treptow-Köpenick.

About 42 thousand business registrations were registered in 2015 for Berlin. This was 6.2 percent less than in previous year. With approximately 35 thousand business deregistrations were at previous year's level.

The gross domestic product (GDP) in Berlin increased by 3.0 percent, compared to 2.1 percent in 2014.

In 2016, the election to the House of Representatives of Berlin (Abgeordnetenhaus) had been held. The Social Democratic Party (SPD) with 21.6 percent of the secondary votes is the strongest party in Berlin, followed by the Christian Democratic Union (CDU) with 17.6 percent. The third-strongest political force was The Left (DIE LINKE) with 15.6 percent.

»Die kleine BERLIN-STATISTIK 2016« gives an initial overview of the data provided by official statistics. A similar brochure is available for the federal state of Brandenburg (»Die kleine BRANDENBURG-STATISTIK 2016«). Both booklets are also published in German. Comparative figures for the federal states can be found in the common statistics portal of the statistical offices of Germany and the federal states www.statistikportal.de.

The microcensus is a household survey conducted annually, comprising 1 percent of households. It provides information on the economic and social situation of the population.

¹ Since 2009 only parental benefit

04 Households and Families

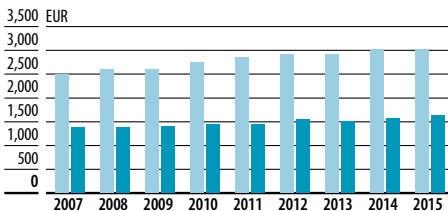

Every community of persons living together and forming an economic unit as well as persons who live alone and, nevertheless, manage for themselves are counted as a household (private household). A household may include relatives and persons who do not belong to the family as such (e.g. partners in life).

Married couples with children as well as single parents and unmarried couples with their unmarried children living in the same household are counted as families.

Average monthly net income of families with children under 18 years

3 Incl. buses

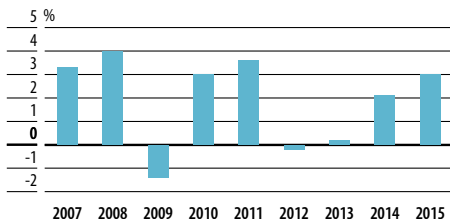

14 National Accounts

National accounts (VGR) are a statistical system for presenting a comprehensive, overall view of the economic activities of all business entities in Berlin. They are based on the European System of national accounts (ESA 2010) and the Classification of Industries (WZ 2008). At the centre of national accounts is the origin of the gross domestic product (GDP) as a measure of performance in Berlin.

	Unit	2007	2011	2015 ¹
Gross domestic product				
in current prices	EUR bn	94.7	108.1	124.2

The reports of traders are delivered monthly from the trading supervision departments. Information about insolvency of companies, consumers and other groups of borrowers provide the district courts.

1 Establishment of businesses, without movings

2 Without relocations; incl. closure of a branch office or dependent

branch (ie including “partial task of continuing operations”)

16.1 Employment and Compensation of Employees

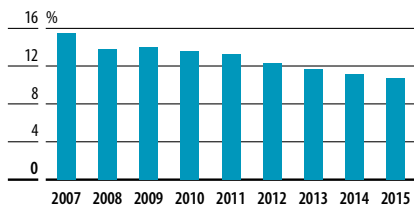

Persons in employment and their wages and salaries are determined within the scope of national account. The figures on the number of employed persons correspond to the workplace concept; that is, all employed persons who have their job in Berlin are taken into consideration. In the result for income creation the figure for employee earnings reflects all of the cash and non-cash benefits accrued to employees working in Berlin from work or other employment relationships.

	Unit	2007	2011	2015 ¹
Persons engaged in economic activity	1000	1,616.1	1,707.6	1,843.2

The foreign trade statistics provide information to the movement of goods across the border (exports and imports) between Brandenburg and foreign countries. Data is derived from customs documents of importers and exporters with countries outside the EU (extra trade). A second data source is the statistical registrations of acquisitions and deliveries within the community according to the Value Added Tax Act (intra trade).

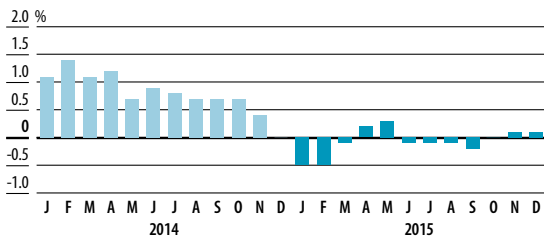

21 Consumer Prices

The consumer price index, shows the price development of all goods and services purchased by private households for consumption purposes, relative to a base year (here: 2010). The change in the consumer price index compared to the same month last year is also known as „inflation“.

The parties received parliamentary seats in accordance with their share of the valid second votes. A party which won more direct parliamentary seats than it was entitled to in accordance with its share of the second votes in the entire polling area was authorised to retain such seats won in addition to the number gained through proportional representation. The other parties received as many compensatory seats as were required for allocation of the parliamentary seats in accordance with the proportion of the second votes.

On 25 May 2014 the citizens of Berlin were able to directly participate in an election for the European Parliament (Europäisches Parlament) for the fifth time.

In the case of the European elections which took place prior to German Reunification the Berlin representatives in the European Parliament were determined by the House of

Representatives (Abgeordnetenhaus von Berlin) in accordance with the size of the respective parliamentary groups represented there.

Results of the elections to the European Parliament (Europäisches Parlament) on 25 May 2014 in Berlin

– valid votes in percent –
